

Those who are against Xm radio opn this menial issue should be ashamed that you are wasting tax payers time and money!!! This is a stupid waste of time! Xm should have the right, if a person PAYS for thier service, to offer Traffic and Weather to it's customers! The people who subscribe so there for they recieve! Who do you think you are to tell a company what they CAN and CAN't give to thier customers! I think the FCC is out of control and needs to be brought under some control! I don't wish to be babysat bay washington nor the FCC. I am an adult and if I PAY....key word here....PAY for a service, than they can offer these services to me! There are not using any bad language, so what's the problem?! Also The NAB should also be ashamed that they even thought of trying this.. Scrw you guys!!!!
